APLICACIÓN: Manguera toma y paso de aire empleada para filtros de aire, purificadores y desfuegos de automoviles, camperos, buses, busetones, camiones y maquinaria. Por su forma permite flexibilidad y curvatura obteniendo un mejor desempeño, acoplándose a la figura necesaria, para satisfacción de nuestros clientes.

MANGUERA CORRUGADA PARA USO AUTOMOTRIZ E INDUSTRIAL

APLICACIÓN: Manguera toma y paso de aire empleada para filtros de aire, purificadores y desfogues de automoviles, camperos, buses, busetones, camiones y maquinaria industrial. Por su forma permite flexibilidad y curvatura obteniendo un mejor desempeño, acoplándose a la figura necesaria, para satisfacción de nuestros clientes.

FABRICACION: Manguera en caucho, reforzada con alambre de acero en forma espiral, recubrimiento de lona sintética y terminación en caucho. Fabricación por diámetros desde 1" a 12" y longitudes desde 0.1 a 5.80 metros.

RESISTENCIA A LA INTERPERIE, DIFERENTES CAMBIOS DE TEMPERATURA, FACIL INSTALACION GARANTIZANDO SU FLEXIBILIDAD, DURABILIDAD Y DESEMPEÑO.

IRE PARA USO AUTOMOTRIZ E INDUSTRIAL

APLICACIÓN: Manguera toma y paso de aire empleada para filtros de aire, purificadores y desfuegos de automoviles, camperos, buses, busetones, camiones tipo scania y maquinaria industrial. Por su forma permite flexibilidad y curvatura obteniendo un mejor desempeño, acoplándose a la figura necesaria, para satisfacción de nuestros clientes.

FABRICACION: Manguera en caucho, reforzada con alambre de acero en forma espiral, recubrimiento de lona sintética y terminación en caucho. Fabricación por diámetros desde 1" a 12" y longitudes desde 0.1 a 5.80 metros.

RESISTENCIA A LA INTERPERIE, DIFERENTES CAMBIOS DE TEMPERATURA, FACIL INSTALACION GARANTIZANDO SU FLEXIBILIDAD, DURABILIDAD Y DESEMPEÑO.
